Full Biography

Mano Jio is an Angolan-Portuguese DJ and producer, born to transform energy into rhythm. He began his musical journey in Portugal back in 2006, inspired by pioneers like DJ Znobias (Angola) and DJ NK (Portugal), who helped shape his sonic vision. After years immersed in music, life took a turn in 2012 - but the flame never died. In 2023, he returned with purpose: music isn't just a passion, it's his path.

He blends Batidas, Afrohouse, and Amapiano, but his signature sound lies in raw, soulful Batidas - directly crafted from his own productions. On stage, 90% of what you hear is made by him. Each set is a journey powered by deep groove, African textures, and magnetic energy.

He has performed at venues including Lux Frágil, Casa Capitão, Arroz Estúdios, Musicbox Lisboa, Village Underground Lisboa, Cargo111, and Outra Cena.

Today, Mano Jio draws inspiration from his own essence - "I'm like a magnetic field, absorbing a bit from everywhere" - and channels that into music. The goal is simple: make the world feel.
